

Reception Autumn Term Homework

In Reception we have decided to send home some possible homework activities which you might choose to do as and when over the half term. We appreciate everyone has busy lives and some weeks' homework activities will fit in better than others. What we do ask that you continue to talk to your child about their learning in school and read and comment in your child's reading log once a week. The activities we have listed can be done in any order, any recording can be done in the home activity book. If you can aim to complete a minimum of 6 activities that would be great. Any questions, please speak to a member of the Reception team.

Activity	Date Completed	Activity	Date Completed	Activity	Date Completed	Activity	Date Completed
Make a sandwich and talk about how you made it using the time connectives "first, then, next, after that and finally".		Learn your favourite nursery rhyme.		Talk about the people who help you at home and at school.		Go on an autumn walk with a grown up and talk about the changes you can see.	
Zip your coat up independently.		Hop on one leg. How many times can you hop before you wobble?		Get changed in less than 5 minutes.		Look at photos of you when you were younger. Can you put them in order from past to present?	
Tell your grown up what makes you special.		Play a board game / complete a jigsaw with a member of your family.		Draw or make your house and count the windows.		Keep a weather chart for a week – draw a picture of the weather each day.	
Draw a picture / take a photo of your favourite toy and label it.		Start by copying the letters in your name and then see if you can write it from memory. (NB letter formation).		When you're next out shopping see how many different logos you can recognise e.g. Nike, McDonalds etc.		Look at the cars as they go by. Can you tell your grown up the letters on the number plate?	
Read a traditional tale with a member of your family. Who are the main characters? Where is the story set?		Practise throwing and catching a ball without dropping it every night for a week. Record your score every day.		Find out the what number house you live at – what number are your neighbours?		Collect some shoes or socks and muddle them up. See how fast you can put them in pairs. When you have finished, count how many pairs you have.
