

## Year 1 home learning – Maths

In year 1, we practise reading, writing and counting with numbers to 100. You can do lots of practise of this at home!

We also practise counting in 2s, 5s and 10s. Remember you can log on to TT Rockstars to practise this.

We have also sent you a MyMaths username and passwords to access more maths activities online.

### **Day 1**

Please can you practise a quick recall of number bonds to 10 and 20 (e.g  $7+3=10$ ,  $17+3=20$ ). There are two sheets to complete in your home learning pack. You can use the part-whole models available on the homework page on the website to help you do this.

### **Day 2**

Please can you practise repeated addition with your child e.g.  $2 + 2 + 2 =$

Please find this sheet in your home learning pack/on the website.

### **Day 3**

Please can you practise sharing an amount of objects (within 20) between equal groups. You could use lots of things to do this practically!

### **Day 4**

Using yesterday's learning, please complete the sharing sheets in your home learning pack/on the website.

### **Day 5**

Can you practise counting in 2s, 5s and 10s, forwards and backwards. You can also practise writing these or log on to TT Rockstars for more practise online!

You can find all the resources on the homework page on our school website.
