

DAY 4

1. Design a Villain Vegetable

Yesterday you created your own super vegetable. Today you are going to create your own villain veggie! Remind yourself of the adjectives you used to describe Evil Pea and think about what your own villain could be like.

Draw your vegetable as a villain and then write in sentences to describe its appearance, personality and any superpowers it might have. Really use your imagination, your villain vegetable can do whatever you want it to!

Have a look at the example first to help you with some ideas. Can you see the things that have been underlined in pink? What has been underlined in green? Could you edit it with a purple pen?

My Villain Vegetable

my villain vegetable is called evil Onion. Shee
has a black mask and red eyes. She has
powerful lazer beams that can cut through
windows and doors. She is wicked and cruel
because she plays tricks on other vegetables.
