50 before you're
five
things to do

Kirklees **50 Things to do before you're five** is designed for parents/carers to enjoy a wide range of low/no cost local activities with their children.

The 50 activities are aimed to encourage learning - supporting children's language, literacy development, motor skills and resilience, and they have been designed to have a positive impact on health.

The activities are presented and packaged through a free mobile App, making them easy to access and experience.

**HEALTH &
LEARNING
REVIEW**

In Kirklees your child's two year **Health & Learning Review** can be completed in their early years setting (nursery/preschool/childminder) this was previously offered by health.

If you would like the review done in setting, please speak to your child's early years setting.

Benefits of this offer:

- Review completed by people who know your child well
- A chance for you to talk about your child, their interests and needs, any concerns and what they are learning
- Convenient for parents/carers
- Help to support your child's learning at home and access any additional support advice or services

Giving our children the best start

Ready to
START
School

The **START** programme is a school readiness program that aims to support parents/carers in encouraging their child to develop the skills needed for when they start school, helping to reduce any anxiety the parent/carer and the child may have.

The programme provides a range of activities & challenges to support the skills around:

**Mealtimes | Getting Dressed
Communication & Language
Health & Hygiene | Road Safety
Rules & Boundaries**
